

WORKSHOP

ADVANCED DOULA SKILLS

BREASTFEEDING MANAGEMENT FOR THE BIRTH PROFESSIONAL

The breastfeeding relationship between Mother and Baby is one of the most important relationships of a lifetime. Learn techniques and skills to better support mothers and babies during this precious time of their lives. Topics include:

- Anatomy and physiology of lactation
- Preventing problems with proper latch and positioning
- Understanding infant hunger cues
- Prenatal mother/baby assessment
- Identification & management of common breastfeeding problems
- When to refer to a doctor and/or lactation specialist
